PROFESSIONAL SUMMARY

A dedicated student with practical experience in Software development and machine learning projects. Passionately improving skills in Java technologies while exploring advanced concepts. Worked with cross-functional teams to develop effective solutions, showing a strong commitment to learning and innovation.

SKILLS

- **Technical Skills:** Java, DSA, OOP'S, Machine Learning, Spring Boot, JDBC, Hibernate, Junit, Web Development (HTML, CSS, JavaScript, React Basics), MySQL, Git & GitHub, CI/CD, Docker.
- **Soft skills:** Communication, leadership, teamwork

EDUCATION

- B. Tech. Computer Science | SPPU | JSPM's Rajarshi Shahu College of Engineering, Tathawade, Pune
CGPA: 9.18 | 2025
- XII | HSC | Takshshila junior collage Jamkhed , Ahilyanagar
79.33% | 2022
- X | SSC | L.N. Hoshing Vidyalaya, Jamkhed , Ahilyanagar
97.80% | 2020

ACADEMIC PROJECTS

- **Companion-Way: AI Travel Buddy**
 - Developed an AI-powered system to enhance the solo travel experience.
 - Implemented real-time emotion detection to analyze and respond to user emotions.
 - Delivered personalized conversational responses for empathetic and engaging interactions.Tech Stack: Machine learning, Python, Flask, TensorFlow, NLP, ResNet-50.
- **AI-Powered Plant Detection, Guidance, and Tracking System.**
 - Developed an AI-powered system to identify diseases in tomato plants by analyzing leaf images.
 - Generated detailed reports and provided actionable steps to prevent or manage detected diseases.
 - Features a user-friendly application for disease detection, guidance, and tracking
 - Tech Stack: Machine Learning, Flask, React.

EXPERIENCE

- **Technology Virtual Internship | Deloitte | 05/2025**
 - Completed a Deloitte-sponsored job simulation focused on real-world coding and software development tasks.
 - Applied technology consulting skills to solve business challenges in a simulated client environment.
 - Practiced professional problem-solving and communication methods relevant to a global consulting firm.
- **AI/ML Virtual Intern | AICTE & Eduskills | 01/2024 - 03/2024**
 - Acquired hands-on experience in artificial intelligence and machine learning, developing models from scratch, training on data and testing.
 - Worked with supervised and unsupervised learning algorithms, optimizing model accuracy.

POSITION OF RESPONSIBILITY

- **Technical Event Head** | Competitive Coding Club, JSPM | (10/2023- Present)
- **Student Coordinator** | Department Of Engineering Sciences and Humanity, JSPM | (01/2023 - 07/2023)

ACHIEVEMENTS

- Runner-up of CodeCraft Hackathon 2025 organized by Apptware | Achieved distinction among 150+ competing teams – Machine Learning, Artificial Intelligence | 02/2025
- Best Performance Award at Avinya 24-Hour Hackathon | Ranked among top 30 teams | 03/2024
- Successfully Conducted 'Codewolf 4.0 & Series' – Annual Tech Event with 250+ Participants as technical event head | JSPM | 03/2023

CERTIFICATIONS

- Java Training Certification (Spoken Tutorial, IIT Bombay) | FEB 2024
- C++ Training Certification (Spoken Tutorial, IIT Bombay) | OCT 2023
- Data Structures in C++ Certification (Scaler Topics) | JAN 2024
